

Welcome to St. James High School, where our mission is to empower all students to reach their highest level of academic achievement and social-emotional well being. We are excited to be in our new, state of the art facility! Our faculty and staff have worked hard to provide every opportunity possible for our

students. You like sports? We got that! From a football program consistently ranked in the Louisiana polls, to a myriad of other sports, we offer something for everyone. Performing arts? We got that! With choices like dance classes, marching and concert band, musical theater, choir, visual art, publications, to our media classes that culminate in our Wildcat TV productions, we offer a wealth of opportunity for the creative-minded student. Academic rigor? We got that! SJH has climbed the state ladder and is now among the top Louisiana schools according to the DOE grading scale. We have also achieved state recognition as a Louisiana Top Gains School four times since 2012! Choices? We got that! You can take all your classes at the home site, including dual enrollment courses in English and History. You can take advantage of the opportunities at our Science and Math Academy, with dual enrollment courses in science and math, and elective courses in the STEM field. Or, you can attend our Career and Technical Center to get skills in the technical fields that lead to high paying careers in local industry. SJH has something for everyone! We are Wildcat strong and St. James proud.
